Re: Medical-Refusal to
 dispense prescribed Medication
 Nurse Lisa Maye's / Staff
 CA# 05-626-JJF / 1:05-cv-626

Honorable Judge Joseph T. Farman Jr.

As to letter dated November 7th, 2006, my being transferred to the Central Violation Building!

On 11-4-2006, Saturday Morning at approximately 4:30, A.M. I Ricky J Hamby approached the medication window, stated my name, the nurse, Miss Lisa Maye's handed me a yellow capsule that I am not familiar with so I ask (while showing the pill to her) 'what is this' its not mine! She looked at me "smugly" and stated, "take it not," I'm not playing with you! I said, but it's not what I am suppose to take, could you check it? She just looked at me with one hand on her hip but wouldn't reply. I ask again, 'would you please check this', Miss Maye's stated, "I'm done, goodbye." I placed it back thru the slot and left.

On 11-11-06, at approximately 4:40 A.M. the following Saturday, this nurse, Lisa Maye's looked at my chart and saw that the doctor had ordered tylenol 3 with codine and with wrinkled face stated "what the hell" why

are you getting all these pain meds? I respectfully told her, my entire right side is mangled, I have permanent nerve damage throughout my right side, drop foot and severe back injury's, that's why the doctor ordered percosets but it got changed to tylenol 3/w codine because she couldn't get approval for anything else. Officer Switsky was on one side of the medicine dispensing window and Officer Wooten on the other about 4 feet from me to observe, Officer Wooten touched my arm as I was walking away and told me I did the right thing not to argue and both officers heard the entire conversation and witnessed this nurse refusing to give me my medications that are prescribed to me. I've been taking these medications for approximately (2) years and have never had a problem until now.

As myself and officer Wooten turned the corner to my housing area I ask officer to contact the Lt. He called and told me the Lt. (Cotterman) would be around shortly. At 6:17 P.M. I spoke to Lt. Cotterman, informed him of this situation and that I would appreciate him doing something about this because Nurse Maye's cannot refuse to give me my medication; I also explained to Lt. Cotterman that I have legal standing in federal court pending about not getting proper medical care and that a specialist (Dr. Hershey) that Gander Hill sent me too who recommended pain management and recommended Ultram as one of my treatments and also that I needed my prosthetic Boots and

leg brace, "and" that I'm a chronic case patient! I also informed this Lt. that nurse Maye's was very rude, disrespectful, even after she made me open my mouth after the first soma (I of my muscle relaxers) run my finger's around my gums, lower my head and check under my tongue, accused me of 'cheating on my meds', followed by refusing to give me the other (4) four medications (my other soma, two Ultrams and my tylenon 3, I told her, fine, could I have your name? she stated very disrespectfully, "santa claus" Bye! Officer Savitsky and officer Wooten observed and heard all of this, I immediately ask for a sick call slip and a Medical Grievance of which officer logged into the officers log book, page 117 on Nurse Lisa Maye's.

Right at the moment I was walking away with officer Wooten, Miss Maye's came out around from the office, looked around, looked at me and stated, "put in a sick call and start all over again, you not getting anything else from me."

At 8-25-06, Lt. Cotterman came back that Nurse Maye's still refuses and he cannot force her to give it to me!

I also spoke to Lt. Stagg the next morning and informed him of the situation, He stated to me that he will not tell nurse Maye's to give me my medications. I told all people involved, Lt. Stagg, Lt. Cotterman, Sgt. Daniels that I desperately need my medication because without consistancy of these medicines in my system, within a week I may

not be able to walk, I'll be in serious pain and my involuntary muscle spasms will be out of control, and if they are not willing to do anything then I request to have access to a law library and to the courts to be able to inform somebody before my condition gets to the point I can't stand it.

11-12-06, 5:23 A.M. I informed officer Araya about Nurse Mayo's refusing to give me my medication yesterday and last night and ask who would be the Lt. on staff this morning, he told me to come out when they call medication and see if Miss Mayo's (Nurse) was still refusing to give me my prescribed medicine.

At 6:49 A.M. I went out for medication call, Nurse Mayo's still is refusing to give me any of my medications and that nurse Mayo's told me she called Doctor Vandusa and without any other details said Doctor Vandusa had stopped all my treatment based on "her word," I requested from Miss Lisa Mayo's (Nurse) 'what did you say to him and why are you doing this', she just smiled and with four fingers waving said bye "Smiling."

I ask officer Rius who the Lt was and briefly explained my situation and requested to see the Lt. At 6:28 A.M. I ask Lt. Stagg if he would please tell me who is the supervisor is of Nurse Mayo's, he stated ("me"), indicating himself, I said to him, (Lt.

stagg), that 'no' she has to have a medical "supervisor" and I also requested to know who the Medical Director was and he stated he would have that information for me before he leaves his shift at 7 a.m. Officer Ruiz was still present.

At 6:41 a.m. Lt. Stagg told me he understood my situation and the fact that I'm a chronic care patient and "emphasized he would make my stay here as comfortable as possible and see what he could do. He stated to me at 6:50 a.m. that he was standing with the nurse but would pass the situation on to the higher ups, but when ask "who" would be the higher up specifically, he wouldn't say!

I waited until 7:19 A.M. and I have not received any of the information from Lt. Stagg as he promised!

At 9:56 A.M. on 11-12-06, I spoke to Sgt. Daniella who I had spoke to before about my medical needs and my situation with Nurse Maye's, he said based on my information and what he understood as of this morning that Nurse Maye's had now stated when ask (I wouldn't say who spoke to Miss Maye's) that she now stated that I was caught a couple of times smuggling my narcotics back to my pod! I came back and showed Sgt. Daniella my notes and I could prove it was not true and not the case at all, he ask me how (Officer Ruiz was still present), I ask him, "if I was caught doing as Miss Maye's had said, wouldn't I have been written up?" he said yes sir? I said no sir! Sgt. Daniella, after listening to me and I finally

stated to him about my being on these medication for almost 12 years and "NEVER" having this problem before and in fact I had never been written up for it, he looked at me and "Quote" said, good point, I believe you, but unfortunately I can't do anything, you'll have to get with Capt: May Monday morning and "we'll get it straightened out, I thanked him for his time and listening to me, he stated again, "I believe you" no problem, I came back to my assigned living quarters.

Last, there was a worker from the E-Crow who informed me of a conversation he heard and was present and a party to - see attached signed letter -

Miss Maye's broke Confidentiality by talking to anybody other than my doctor about the medications I'm on, and it is not his job or place to stop my prescribed treatment.

As to stop this unjust cancelation "by" a Nurse (Miss Lisa Maye's) of my treatment for my condition prescribed by a licensed Physician to treat my permanent medical condition, I pray from the court, by the court for an appropriate relief, ¹ resume my medication, or ² release me to my level III so that I may seek my own medical doctor's and treatment. It is my intention to prove thru witnesses and log book's, staff members, officers, Sgts: and Lt's that Miss Maye's had (has) no just cause or proof to stop my

To whom it may Concern,

I Robert Greenley #00277487 was working on the E-crew on the west side right by the sick call entrance. Where I heard Nurse Maye's and a Inmate talking about, "that guy Hamby is on 5 narcotics and I'm not giving him anymore medication's, I don't think he or anybody else should be taking that much medication!

medications and treatment based on her own beliefs of what I should or shouldn't be given in form of medication or any treatment, she is "not" a doctor and cannot take it upon herself to discontinue 'anybody's' treatment, and stop this pain and suffering upon myself.

Sincerely Submitted
Ricky J Hamby

I swear that the foregoing statement
is true and correct.
